

**Community Engagement  
Strategic Initiative:**

**Short-term NFM4 related  
TA**

## Objectives

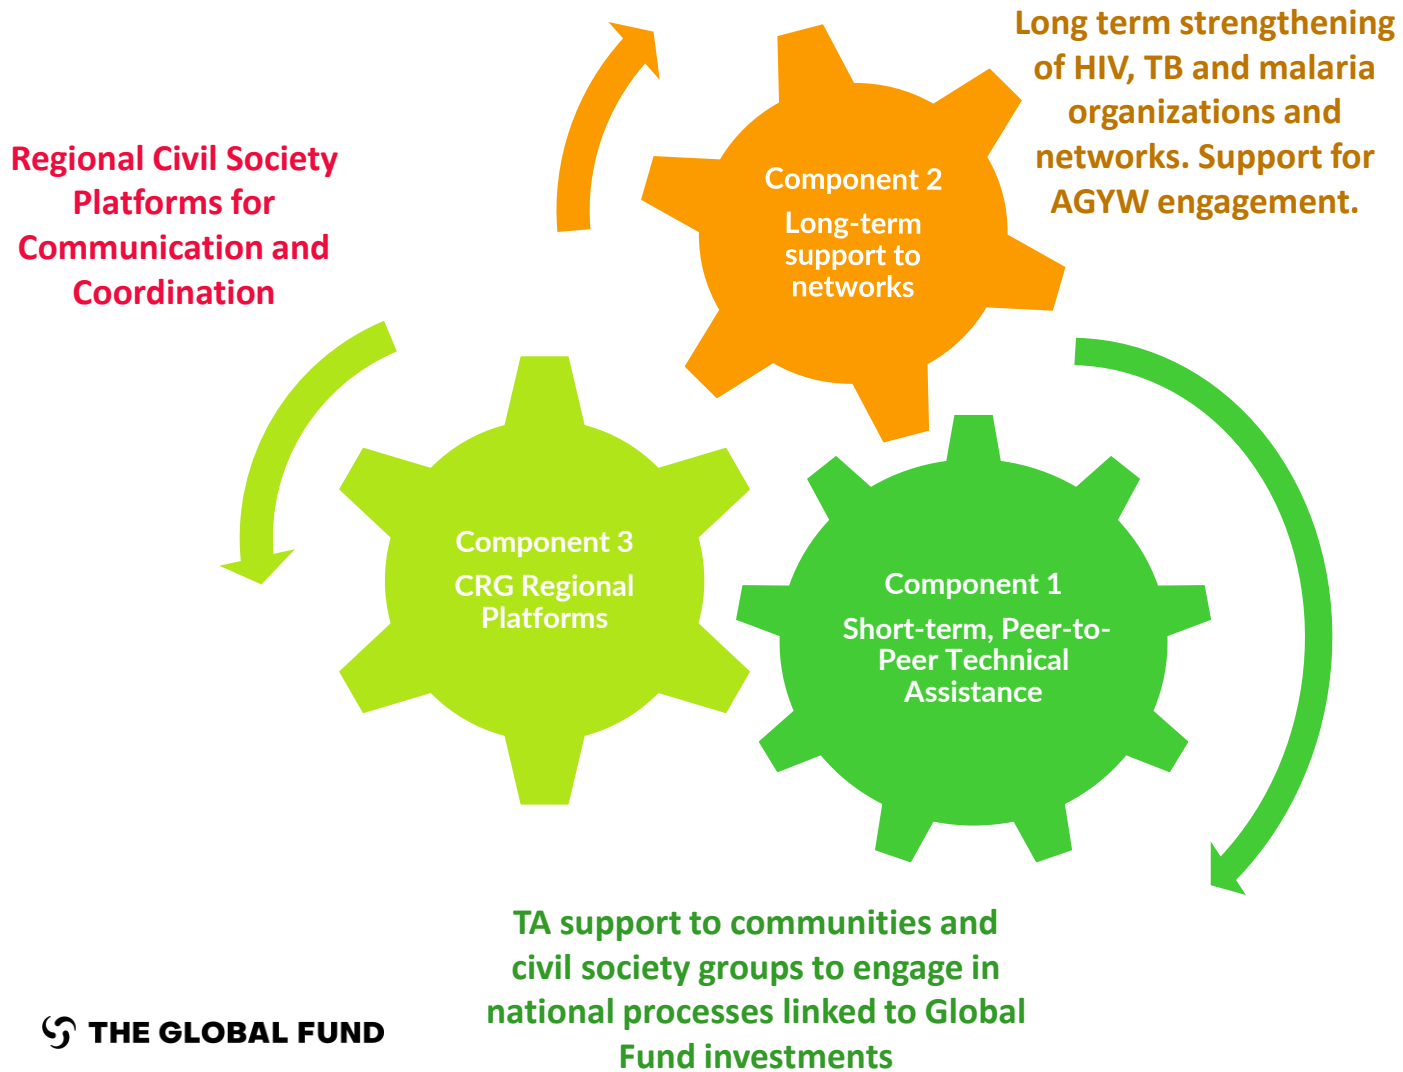

**The main objective of the Strategic Initiative (SI) on Community Engagement is to strengthen the involvement of civil society and communities in the work of the Global Fund and related processes at the national level**

Engaging communities and civil society representatives at all stages of the grant cycle is critical to designing, developing and implementing effective responses to the three diseases, and strengthening systems to ensure that Global Fund investments meet the needs of the most affected populations.
